

GROW UP. TRADE UP. SAVE UP.

DID YOU KNOW KIDS GROW AN AVERAGE OF 2.5-3 INCHES EACH YEAR?

To accommodate this growth, we make nine sizes of clubs based on a player's height 39"-63" tall... something unique to the junior golf industry. As your player grows and becomes stronger, our clubs grow with each stage, making it easier to perfect the game. We've thought of everything: grip dimensions, shaft flex, head weights, and especially length changes with each size throughout the line.

Continuing to play with our equipment creates proper swings that lead to successful golfers. When your player grows out of a size, we allow you to trade-in your old clubs for credit towards *current model individual clubs or sets, ensuring the proper clubs will be with them as they continue to learn the game.
